## VSAT SERVICES

VIVACOM offers guaranteed and reliable Internet service, with various packages, depending on customer needs. Our VSAT network provides automatic beam-switching which ensures stable connectivity.

## CUSTOMER EQUIPMENT

VIVACOM partners with the leading VSAT vendors iDirect and Intellian, providing flexible options for equipment lease.

## CUSTOMER SUPPORT

VIVACOM has Network Operations Center (NOC) supporting our customers 24/7.

## ADDITIONAL SERVICES AND BENEFITS

### IP TELEPHONY

Customers can use IP telephony over VIVACOM VSAT connectivity, optimizing the cost of voice services.

### TV ON BOARD

Delivering online TV streaming services with various TV packages.

### CUSTOMER WEB PORTAL

24/7 real time Internet traffic monitoring through VIVACOM's web portal.

### CREW WELFARE

Enabling better relationship between the crew and their relatives via Internet and social media platforms.

### MARITIME APPLICATIONS

Each vessel using VIVACOM's VSAT services could take advantage of various additional maritime applications such as remote management and monitoring of ship systems.

**VIVACOM** is a leader in providing full modern telecommunication services - from high-speed Fiber Optic Internet to Mobile Voice and Data services, Digital Interactive TV and Satellite Connectivity.

The company operates the largest state-of-the-art facility for satellite communications in the region - Plana Teleport, which is Tier 3 certified by the World Teleport Association.

**VIVACOM** has more than 40 years of experience in Satellite Communications, providing connectivity in Europe, Africa, Asia, Middle East and Latin America.
